# ACADEMIC REGULATIONS & CURRICULUM

# Applicable to the students admitted from the Academic Year 2023-2024

# INFORMATION TECHNOLOGY (B.Tech. Programme)

# MAHARAJ VIJAYARAM GAJAPATHI RAJ COLLEGE OF ENGINEERING (Autonomous)

(Approved by AICTE, New Delhi, and permanently affiliated to JNTUGV, Vizianagaram) Listed u/s 2(f) & 12(B) of UGC Act 1956. Vijayaram Nagar Campus, Chintalavalasa, Vizianagaram-535005, Andhra Pradesh

# The visionaries

# Late Dr. P V G Raju Raja Saheb of Vizianagaram Founder Chairman-MANSAS Ex-Minister for Education and Health, Govt. of AP Ex Member of Parliament

Late Dr. P. Anand Gajapathi Raju Ex-Chairman-MANSAS Ex-Minister for Education and Health Govt. of AP Ex Member of Parliament

P. Ashok Gajapathi Raju Chairman-MANSAS Ex-Union Minister for Civil Aviation, Govt. of India Ex-Minister for Finance, Govt. of AP

# Academic Regulations (R23) for B. Tech (Regular-Full time)

(Effective for the students admitted into I year from the Academic Year 2023-24 onwards)

# 1. Award of the Degree

- (a) Award of the B.Tech. Degree / B.Tech. Degree with a Minor if he/she fulfills the following:
  - (i) Pursues a course of study for not less than four academic years and not more than eight academic years. However, for the students availing Gap year facility this period shall be extended by two years at the most and these two years would in addition to the maximum period permitted for graduation (Eight years).
  - (ii) Registers for 160 credits and secures all 160 credits.

# (b) Award of B.Tech. degree with Honors

A student will be declared eligible for the award of the B.Tech. with Honors if he/she fulfills the following:

- (i) Student secures additional 15 credits fulfilling all the requisites of B.Tech. program i.e., 160 credits.
- (ii) Registering for Honors is optional.
- (iii) Honors is to be completed simultaneously with B.Tech. programme.

2. Students, who fail to fulfill all the academic requirements for the award of the degree within eight academic years from the year of their admission, shall forfeit their seat in B.Tech. course and their admission stands cancelled. This clause shall be read along with clause 1 a) i).

## 3. Admissions

Admission to the B. Tech Program shall be made subject to the eligibility, qualifications and specialization prescribed by the A.P. State Government/University from time to time. Admissions shall be made either based on the merit rank obtained by the student in the common entrance examination conducted by the A.P. Government/University or any other order of merit approved by the A.P. Government/University, subject to reservations as prescribed by the Government/University from time to time.

# 4. **Program related terms**

*Credit*: A unit by which the course work is measured. It determines the number of hours of instruction required per week. One credit is equivalent to one hour of teaching (Lecture/Tutorial) or two hours of practical work/field work per week.

# **Credit definition:**

1 Hr. Lecture (L) per week	1 credit
1 Hr. Tutorial (T) per week	1 credit
1 Hr. Practical (P) per week	0.5 credit
2 Hrs. Practical (Lab) per week	1 credit

- a) *Academic Year*: Two consecutive (one odd + one even) semesters constitute one academic year.
- b) *Choice Based Credit System (CBCS):* The CBCS provides a choice for students to select from the prescribed courses.

#### 5. Semester/Credits:

- i. A semester comprises 90 working days and an academic year is divided into two semesters.
- The summer term is for eight weeks during summer vacation. Internship/ apprenticeship / work-based vocational education and training can be carried out during the summer term, especially by students who wish to exit after two semesters or four semesters of study.
- iii. Regular courses may also be offered during the summer on a fast-track mode to enable students to do additional courses or complete backlogs in coursework.
- iv. The Universities/HEIs can decide on the courses to be offered in the summer term depending on the availability of faculty and the number of students.

## 6. Structure of the Undergraduate Programme

All courses offered for the undergraduate program (B. Tech.) are broadly classified as follows:

S.No.	Category	Breakup of Credits (Total 160)	Percentage of total credits	AICTE Recommendation (%)
1.	Humanities and Social Science	13	8 %	8 - 9%
	including Management (HM)			
2.	Basic Sciences (BS)	20	13 %	12 - 16%
3.	Engineering Sciences (ES)	23.5	14%	10 - 18%
4.	Professional Core (PC)	54.5	34 %	30 - 36%
5.	Electives – Professional (PE) & Open (OE); Domain Specific Skill Enhancement Courses (SEC)	33	21 %	19 - 23%
6.	Internships & Project work (PR)	16	10 %	8 - 11%
7.	Mandatory Courses (MC)	Non-credit	Non-credit	-

#### 7. Course Classification:

All subjects/ courses offered for the undergraduate programme in Engineering & Technology (B.Tech. degree programs) are broadly classified as follows:

S.No.	Broad Course Classification	Course Category	Description
1.	Foundation Core Courses	Foundation courses	Includes Mathematics, Physics and Chemistry; fundamental engineering courses; humanities, social sciences and management courses
2.	Core Courses	Professional Core Courses (PC)	Includes subjects related to the parent discipline /department / branch of Engineering

		Professional Elective Courses (PE)	Includes elective subjects related to the parent discipline/department/ branch of Engineering
3.	Elective Courses	Open Elective Courses (OE)	Elective subjects which include interdisciplinary subjects or subjects in an area outside the parent discipline/ department/ branch of Engineering
		Domain specific skill enhancement courses (SEC)	interdisciplinary/job-oriented/domain courses which are relevant to the industry
		Project	B.Tech. Project or Major Project
4.	Project & Internships	Internships	Summer Internships – Community based and Industry Internships; Industry oriented Full Semester Internship
5.	Audit Courses	Mandatory non- credit courses	Covering subjects of developing desired attitude among the learners

#### 8. Programme Pattern

- i. Total duration of the B. Tech (Regular) Programme is four academic years.
- ii. Each academic year of study is divided into two semesters.
- iii. Minimum number of instruction days in each semester is 90 days.
- iv. There shall be mandatory student induction program for fresher's, with three-week duration before the commencement of first semester. Physical activity, Creative Arts, Universal Human Values, Literary, Proficiency Modules, Lectures by Eminent People, Visits to local Areas, Familiarization to Dept./Branch & Innovations etc., are included as per the guidelines issued by AICTE.
- v. Health/wellness/yoga/sports and NSS /NSS /Scouts & Guides / Community service activities are made mandatory as credit courses for all the undergraduate students.
- vi. Courses like Environmental Sciences, Indian Constitution and Technical Paper Writing & IPR are offered as non-credit mandatory courses for all the undergraduate students.
- vii. Designs Thinking for Innovation & Tinkering Labs are made mandatory as credit courses for all the undergraduate students.
- viii. Increased flexibility for students through an increase in the elective component of the curriculum, with 05 Professional Elective courses and 04 Open Elective courses.
- ix. Professional Elective Courses, include the elective courses relevant to the chosen specialization/branch. Proper choice of professional elective courses can lead to students specializing in emerging areas within the chosen field of study.
- x. A total of 04 Open Electives are offered in the curriculum. A student can complete the requirement for B.Tech. Degree with a Minor within the 160 credits by opting for the courses offered through various verticals/tracks under Open Electives.
- xi. While choosing the electives, students shall ensure that they do not opt for the courses with syllabus contents similar to courses already pursued.
- xii. A pool of interdisciplinary/job-oriented/domain skill courses which are relevant to the industry are integrated into the curriculum of all disciplines. There shall be 05 skill-oriented courses offered during III to VII semesters. Among the five skill courses, four courses shall focus on the basic and advanced skills related to the domain/interdisciplinary courses and the other shall be a soft skills course.
- xiii. Students shall undergo summer internships, for a minimum of eight weeks duration at the end of second and third year of the program. The internship at the end of second year shall be community oriented and industry internship at the end of third year.
- xiv. There shall also be full internship in the final semester of the program along with the project work.
- xv. Undergraduate degree with Honors is introduced for the students having good academic record.
- xvi. Each college shall take measures to implement Virtual Labs (<u>https://www.vlab.co.in</u>) which provide remote access to labs in various disciplines of Engineering and will help student in learning basic and advanced concept through remote experimentation. Student shall be made to work on virtual lab experiments during the regular labs.

- xvii. College shall assign a faculty advisor/mentor after admission to a group of students from same department to provide guidance in courses registration/ career growth / placements / opportunities for higher studies/ GATE/ other competitive exams etc.
- xviii. Preferably 25% of course work for the theory courses in every semester shall be conducted in the blended mode of learning.

#### 9. Evaluation Process

The performance of a student in each semester shall be evaluated subject wise with a maximum of 100 marks for theory and 100 marks for practical subject. Summer Internships shall be evaluated for 50 marks, Full Internship &Project work in final semester shall be evaluated for 200 marks, mandatory courses with no credits shall be evaluated for 30 mid semester marks.

A student has to secure not less than 35% of marks in the end examination and a minimum of 40% of marks in the sum total of the Continuous Internal Evaluation and Semester end examination marks taken together for the theory, practical, design, drawing subject or project etc. In case of a mandatory course, he/she should secure 40% of the total marks.

# THEORY COUSES

Assessment Method	Marks
Continuous Internal Evaluation	30
Semester End Examination	70
Total	100

- i. For theory subject, the distribution shall be 30 marks for Internal Evaluation and 70 marks for the End-Examination.
- ii. For practical subject, the distribution shall be 30 marks for Internal Evaluation and 70 marks for the End- Examination.
- iii. If any course contains two different branch subjects, the syllabus shall be written in two parts with 3 units each (Part-A and Part-B) and external examination question paper shall be set with two parts each for 35 marks.
- iv. If any subject is having both theory and practical components, they will be evaluated separately as theory subject and practical subject. However, they will be given same subject code with an extension of "T" for theory subject and "P" for practical subject.

#### a) Continuous Internal Evaluation

- i. For theory subjects, during the semester, there shall be two midterm examinations. Each midterm examination shall be evaluated for 30 marks of which 10 marks for objective paper (20 minutes duration), 15 marks for subjective paper (90 minutes duration) and 5 marks for assignment.
- ii. Objective paper shall contain for 05 short answer questions with 2 marks each. Subjective paper shall contain 3 either or type questions (totally six questions from 1 to 6) of which student has to answer one from each either or type of questions. Each question carries 10 marks. The marks obtained in the subjective paper are condensed to 15 marks.
- iii. First midterm examination shall be conducted for I, II units of syllabus with one either or type question from each unit and third either or type question from both the units. The second midterm examination shall be conducted for III, IV and V units with one either or type question from each unit.
- iv. Final mid semester marks shall be arrived at by considering the marks secured by the student in both the mid examinations with 80% weightage given to the better mid exam and 20% to the other.

# For Example:

Marks obtained in first mid: 25 Marks obtained in second mid: 20 Final mid semester Marks: (25x0.8) + (20x0.2) = 24 If the student is absent for any one midterm examination, the final mid semester marks shall be arrived at by considering 80% weightage to the marks secured by the student in the appeared examination and zero to the other. For Example:

Marks obtained in first mid: Absent Marks obtained in second mid: 25 Final mid semester Marks: (25x0.8) + (0x0.2) = 20

#### b) End Examination Evaluation:

End examination of theory subjects shall have the following pattern:

- i) There shall be 6 questions and all questions are compulsory.
- ii) Question I shall contain 10 compulsory short answer questions for a total of 20 marks such that each question carries 2 marks.
- iii) There shall be 2 short answer questions from each unit.
  - a) In each of the questions from 2 to 6, there shall be either or type questions of 10 mark each. Student shall answer any one of them.
- iv. The questions from 2 to 6 shall be set by covering one unit of the syllabus for each question.

End examination of theory subjects consisting of two parts of different subjects, *for example*: Basic Electrical &Electronics Engineering shall have the following pattern:

- i. Question paper shall be in two parts viz., Part A and Part B with equal weightage of 35 marks each.
- ii. In each part, question 1 shall contain 5 compulsory short answer questions for a total of 5 marks such that each question carries 1mark.
- iii. In each part, questions from 2 to 4, there shall be either or type questions of 10 mark each. Student shall answer any one of them.
- iv. The questions from 2 to 4 shall be set by covering one unit of the syllabus for each question.

#### PRACTICAL COURSES

Assessment Method	Marks
Continuous Internal Assessment	30
Semester End Examination	70
Total	100

- b) For practical courses, there shall be a continuous evaluation during the semester for 30 sessional marks and end examination shall be for 70 marks.
- c) Day-to-day work in the laboratory shall be evaluated for 15 marks by the concerned laboratory teacher based on the regularity/record/viva and 15 marks for the internal test.
- d) The end examination shall be evaluated for 70 marks, conducted by the concerned laboratory teacher and a senior expert in the subject from the same department.

Procedure: 20 Marks

Experimental work & Results: 30 marks Viva voce: 20 marks.

In a practical subject consisting of two parts (Eg: Basic Electrical &Electronics Engineering Lab), the end examination shall be conducted for 70 marks as a single laboratory in 3 hours.

#### e) Engineering Graphics evaluation

Assessment Method	Marks	
Continuous Internal Assessment	30	
Semester End Examination	70	
Total	100	
Day-to-day work shall be evaluated for 1	5 marks by the concerned subject teacher based on the	
reports/submissions prepared in the class and 15 marks for the internal examination.		

The internal examination pattern for Engineering Graphics, shall consist of 5 questions, either or type, of equal weightage of 3 marks.

The end examination shall be evaluated for 70 marks, conducted by the concerned teacher and a senior expert in the subject from the same department.

The end examination pattern for Engineering Graphics, shall consists of 5 questions, either or type, of 10 marks each (5x10=50) and 20 marks for Viva voce.

# f) NSS/NCC/SCOUTS & GUIDES/COMMUNITY SERVICE

#### **General Guidelines:**

- 1. Assign slots in the Timetable for the activities.
- 2. Provide instructor to mentor the students.

## **Evaluation Guidelines:**

- Evaluated for a total of 100 marks.
- A student can select 6 activities of his/her choice with a minimum of 01 activity per unit. Each activity shall be evaluated by the concerned teacher for 15 marks, totaling to 90 marks.
- A student shall be evaluated by the concerned teacher for 10 marks by conducting viva voce on the subject.

# HEALTH AND WELLNESS, YOGA AND SPORTS

#### **General Guidelines:**

- 1. Assign slots in the Timetable for the activities of Health/Sports/Yoga.
- 2. Provide field/facility and offer the minimum of five choices of as many as Games/Sports.
- 3. Provide sports instructor / yoga teacher to mentor the students.

#### **Evaluation Guidelines:**

- Evaluated for a total of 100 marks.
- A student can select 6 activities of his/her choice with a minimum of 01 activity per unit. Each activity shall be evaluated by the concerned teacher for 15 marks, totalling to 90 marks.
- A student shall be evaluated by the concerned teacher for 10 marks by conducting viva voce on the subject.
- g) There shall be no external examination for mandatory courses with zero credits. However, attendance shall be considered while calculating aggregate attendance and student shall be declared to have passed the mandatory course only when he/she secures 40% or more in the internal examinations. In case, the students fails, a re-examination shall be conducted for failed candidates for 30 marks satisfying the conditions mentioned in item 1 & 2 of the regulations.
- h) The laboratory records and mid semester test papers shall be preserved for a minimum of 1 year in the respective departments and shall be produced to the Committees of the University as and when the same are asked for.

#### **10. Skill oriented Courses**

- i. There shall be five skill-oriented courses offered during III to VII semesters.
- Out of the five skill courses two shall be skill-oriented courses from the same domain. Of the remaining three skill courses, one shall be a soft skill course and the remaining two shall be skill-advanced courses from the same domain/Interdisciplinary/Job oriented.
- iii. The course shall carry 100 marks and shall be evaluated through continuous assessments during the semester for 30 sessional marks and end examination shall be for 70 marks. Day-to-day work in the class / laboratory shall be evaluated for 30 marks by the concerned teacher based on the regularity/assignments/viva/mid semester test. The end examination

similar to practical examination pattern shall be conducted by the concerned teacher and an expert in the subject nominated by the principal.

- iv. The Head of the Department shall identify a faculty member as coordinator for the course. A committee consisting of the Head of the Department, coordinator and a senior Faculty member nominated by the Head of the Department shall monitor the evaluation process. The marks/grades shall be assigned to the students by the above committee based on their performance.
- v. The student shall be given an option to choose either the skill courses being offered by the college or to choose a certificate course being offered by industries / Professional bodies or any other accredited bodies. If a student chooses to take a Certificate Course offered by external agencies, the credits shall be awarded to the student upon producing the Course Completion Certificate from the agency. A committee shall be formed at the level of the college to evaluate the grades/marks given for a course by external agencies and convert to the equivalent marks/grades.
- vi. If a student prefers to take a certificate course offered by external agency and approved by University, the department shall mark attendance of the student for the remaining courses in that semester excluding the skill course in all the calculations of mandatory attendance requirements upon producing a valid certificate as approved by the University.

## 11. Massive Open Online Courses (MOOCs):

A Student has to pursue and complete one course compulsorily through MOOCs approved by the BoS. A student can pursue courses other than core through MOOCs and it is mandatory to complete one course successfully through MOOCs for awarding the degree. A student is not permitted to register and pursue core courses through MOOCs.

A student shall register for the course (Minimum of either 8 weeks or 12 weeks) offered through MOOCs with the approval of Head of the Department. The Head of the Department shall appoint one mentor to monitor the students progression. The student needs to earn a certificate by passing the exam. The student shall be awarded the credits assigned in the curriculum only by submission of the certificate. Examination fee, if any, will be borne by the student.

Students who have qualified in the proctored examinations conducted through MOOCs platform can apply for credit transfer as specified and are exempted from appearing internal as well as external examination (for the specified equivalent credit course only) conducted by the university.

Necessary amendments in rules and regulations regarding adoption of MOOC courses would be proposed from time to time.

#### **12. Credit Transfer Policy**

Adoption of MOOCs is mandatory, to enable Blended model of teaching-learning as also envisaged in the NEP 2020. As per University Grants Commission (Credit Framework for Online Learning Courses through SWAYAM) Regulation, 2016, the University shall allow up to a maximum of 20% of the total courses being offered in a particular programme i.e., maximum of 32 credits through MOOCs platform.

- i. The University shall offer credit mobility for MOOCs and give the equivalent credit weightage to the students for the credits earned through online learning courses.
- ii. Student registration for the MOOCs shall be only through the respective department of the institution, it is mandatory for the student to share necessary information with the department.
- iii. Credit transfer policy will be applicable to the Professional & Open Elective courses only.
- iv. The concerned department shall identify the courses permitted for credit transfer.
- v. The University/institution shall notify at the beginning of semester the list of the online learning courses eligible for credit transfer.
- vi. The institution shall designate a faculty member as a Mentor for each course to guide the students from registration till completion of the credit course.

- vii. The university shall ensure no overlap of MOOC exams with that of the university examination schedule. In case of delay in results, the university will re-issue the marks sheet for such students.
- viii. Student pursuing courses under MOOCs shall acquire the required credits only after successful completion of the course and submitting a certificate issued by the competent authority along with the percentage of marks and grades.
- ix. The universities shall resolve any issues that may arise in the implementation of this policy from time to time and shall review its credit transfer policy in the light of periodic changes brought by UGC, SWAYAM, NPTEL and state government.

Note: Students shall be permitted to register for MOOCs offered through online platforms approved by the University from time to time.

## 13. Academic Bank of Credits (ABC)

The University has implemented Academic Bank of Credits (ABC) to promote flexibility in curriculum as per NEP 2020 to

- i. Provide option of mobility for learners across the universities of their choice
- ii. Provide option to gain the credits through MOOCs from approved digital platforms.
- iii. Facilitate award of certificate/diploma/degree in line with the accumulated credits in ABC
- iv. Execute Multiple Entry and Exit system with credit count, credit transfer and credit acceptance from students" account.

#### 14. Internships Summer Internships

Two summer internships either onsite or virtual each with a minimum of 08 weeks duration, done at the end of second and third years, respectively. It shall be completed in collaboration with local industries, Govt. Organizations, construction agencies, Power projects, software MNCs or any industries in the areas of concerned specialization of the Undergraduate program. One of the two summer internships at the end of second year (Community Service Project) shall be society oriented and shall be completed in collaboration with government organizations/NGOs & others. The other internship at the end of third year is Industry Internship and shall be completed in collaboration with Industries. The student shall register for the internship as per course structure after commencement of academic year. The guidelines issued by the APSCHE / University shall be followed for carrying out and evaluation of Community Service Project and Industry Internship.

Evaluation of the summer internships shall be through the departmental committee. A student will be required to submit a summer internship report to the concerned department and appear for an oral presentation before the departmental committee comprising of Head of the Department, supervisor of the internship and a senior faculty member of the department. A certificate of successful completion from industry shall be included in the report. The report and the oral presentation shall carry 50% weightage each. It shall be evaluated for 50 external marks. There shall be no internal marks for Summer Internship. A student shall secure minimum 40% of marks for successful completion. In case, if a student fails, he/she shall reappear as and when semester supplementary examinations are conducted by the University.

#### Full Semester Internship and Project work:

In the final semester, the student should register and undergo internship (onsite/virtual) and in parallel he/she should work on a project with well-defined objectives. At the end of the semester the candidate shall submit an internship completion certificate and a project report. A student shall also be permitted to submit project report on the work carried out during the internship.

The project report shall be evaluated with an external examiner. The total marks for project work 200 marks and distribution shall be 60 marks for internal and 140 marks for external evaluation. The supervisor assesses the student for 30 marks (Report: 15 marks, Seminar: 15 marks). At the end of the semester, all projects shall be showcased at the department for the benefit of all students and staff and the same is to be evaluated by the departmental Project Review Committee consisting of

supervisor, a senior faculty and HOD for 30 marks. The external evaluation of Project Work is a Viva-Voce Examination conducted in the presence of internal examiner and external examiner and is evaluated for 140 marks.

The college shall facilitate and monitor the student internship programs. Completion of internships is mandatory, if any student fails to complete internship, he/she will not be eligible for the award of degree. In such cases, the student shall repeat and complete the internship.

## 15. Guidelines for offering a Minor

To promote interdisciplinary knowledge among the students, the students admitted into B.Tech. in a major stream/branch are eligible to obtain degree in Minor in another stream.

- i. The Minor program requires the completion of 12 credits in Minor stream chosen.
- ii. Two courses for 06 credits related to a Minor are to be pursued compulsorily for the minor degree, but maybe waived for students who have done similar/equivalent courses. If waived for a student, then the student must take an extra elective course in its place. It is recommended that students should complete the compulsory courses (or equivalents) before registering for the electives.
- iii. Electives (minimum of 2 courses) to complete a total of 12 credits.

Note: A total of 04 Open Electives are offered in the curriculum. A student can complete the requirement for Minor within the 160 credits by opting for the courses offered through various verticals/tracks under Open Electives.

## **16. Guidelines for offering Honors**

The objective of introducing B.Tech. (Hons.) is to facilitate the students to choose additionally the specialized courses of their choice and build their competence in a specialized area in the UG level. The programme is a best choice for academically excellent students having good academic record and interest towards higher studies and research.

- i. Honors is introduced in the curriculum of all B. Tech. programs offering a major degree and is applicable to all B. Tech (Regular and Lateral Entry) students admitted in Engineering & Technology.
- ii. A student shall earn additional 15 credits for award of B.Tech.(Honors) degree from same branch/department/discipline registered for major degree. This is in addition to the credits essential for obtaining the Undergraduate degree in Major Discipline (i.e., 160 credits).
- iii. A student is permitted to register for Honors in IV semester after the results of III Semester are declared and students may be allowed to take maximum two subjects per semester pertaining to the Honors from V Semester onwards.
- iv. The concerned Principal of the college shall arrange separate class work and timetable of the courses offered under Honors program.
- v. Courses that are used to fulfill the student's primary major may not be double counted towards the Honors. Courses with content substantially equivalent to courses in the student's primary Major may not be counted towards the Honors.
- vi. Students can complete the courses offered under Honors either in the college or in online platforms like SWAYAM with a minimum duration of 12 weeks for a 3-credit course and 8 weeks duration for a 2-credit course satisfying the criteria for credit mobility. If the courses under Honors are offered in conventional mode, then the teaching and evaluation procedure shall be similar to regular B. Tech courses.
- vii. The attendance for the registered courses under Honors and regular courses offered for Major degree in a semester are to be considered separately.
- viii. A student shall maintain an attendance of 75% in all registered courses under Honors to be eligible for attending semester end examinations.
- ix. A student registered for Honors shall pass in all subjects that constitute the requirement for the Honors degree program. No class/division (i.e., second class, first class and distinction, etc.) shall be awarded for Honors degree programme.
- x. If a student drops or is terminated from the Honors program, the additional credits so far earned cannot be converted into open or core electives; they will remain extra. However,

such students will receive a separate grade sheet mentioning the additional courses completed by them.

xi. The Honors will be mentioned in the degree certificate as Bachelor of Technology (Honors) in XYZ. For example, B.Tech. (Honors) in Mechanical Engineering

## **Enrolment into Honors:**

- i. Students of a Department/Discipline are eligible to opt for Honors program offered by the same Department/Discipline.
- ii. The enrolment of student into Honors is based on the CGPA obtained in the major degree program. CGPA shall be taken up to III semester in case of regular entry students and only III semester in case of lateral entry students. Students having 7 CGPA without any backlog subjects will be permitted to register for Honors.
- iii. If a student is detained due to lack of attendance either in Major or in Honors, registration shall be cancelled.
- iv. Transfer of credits from Honors to regular B. Tech degree and vice-versa shall not be permitted.
- v. Honors is to be completed simultaneously with a Major degree program.

## **Registration for Honors:**

- i. The eligible and interested students shall apply through the HOD of his/her parent department. The whole process should be completed within one week before the start of every semester. Selected students shall be permitted to register the courses under Honors.
- ii. The selected students shall submit their willingness to the principal through his/her parent department offering Honors. The parent department shall maintain the record of student pursuing the Honors.
- iii. The students enrolled in the Honors courses will be monitored continuously. An advisor/mentor from parent department shall be assigned to a group of students to monitor the progress.
- iv. There is no fee for registration of subjects for Honors program offered in offline at the respective institutions.

# **17. Attendance Requirements:**

- i. A student shall be eligible to appear for the external examinations if he/she acquires a minimum 75% of attendance in aggregate of all the subjects.
- ii. Condonation of shortage of attendance in aggregate up to 10% (65% and above and below 75%) in each semester may be granted.
- iii. Shortage of Attendance below 65% in aggregate shall in NO CASE be condoned.
- iv. Students whose shortage of attendance is not condoned in any semester are not eligible to take their end examination of that class and their registration shall stand cancelled.
- v. A student will not be promoted to the next semester unless he satisfies the attendance requirements of the present semester. They may seek readmission for that semester from the date of commencement of class work.
- vi. If the learning is carried out in blended mode (both offline & online), then the total attendance of the student shall be calculated considering the offline and online attendance of the student.
- vii. For induction programme attendance shall be maintained as per AICTE norms.

#### **18. Promotion Rules:**

The following academic requirements must be satisfied in addition to the attendance requirements.

- i. A student shall be promoted from first year to second year if he/she fulfills the minimum attendance requirement as per university norms.
- ii. A student will be promoted from II to III year if he/she fulfills the academic requirement of securing 40% of the credits (any decimal fraction should be rounded off to lower digit) up to in the subjects that have been studied up to III semester.
- iii. A student shall be promoted from III year to IV year if he/she fulfills the academic requirements of securing 40% of the credits (any decimal fraction should be rounded off to lower digit) in the subjects that have been studied up to V semester.

And in case a student is detained for want of credits for a particular academic year by ii) &

iii) above, the student may make up the credits through supplementary examinations and only after securing the required credits he/she shall be permitted to join in the V semester or VII semester respectively as the case may be.

iv. When a student is detained due to lack of credits/shortage of attendance he/she may be readmitted when the semester is offered after fulfillment of academic regulations. In such case, he/she shall be in the academic regulations into which he/she is readmitted.

#### **19. Grading:**

As a measure of the student's performance, a 10-point Absolute Grading System using the following Letter Grades and corresponding percentage of marks shall be followed:

After each course is evaluated for 100 marks, the marks obtained in each course will be converted to a corresponding letter grade as given below, depending on the range in which the marks obtained by the student fall.

Range in which the marks in the subject fall	Grade	Grade points Assigned
90 & above	S (Superior)	10
80 - 89	A (Excellent)	9
70 - 79	B (Very Good)	8
60 - 69	C (Good)	7
50 - 59	D (Average)	6
40 - 49	E (Pass)	5
< 40	F (Fail)	0
Absent	Ab (Absent)	0

#### **Structure of Grading of Academic Performance**

- i. A student obtaining Grade "F" or Grade "Ab" in a subject shall be considered failed and will be required to reappear for that subject when it is offered the next supplementary examination.
- ii. For non-credit audit courses, "Satisfactory" or "Unsatisfactory" shall be indicated instead of the letter grade and this will not be counted for the computation of SGPA/CGPA/Percentage.

Computation of Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

The Semester Grade Point Average (SGPA) is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by

a student and the sum of the number of credits of all the courses undergone by a student, i.e.,

$$SGPA = \Sigma (Ci \times Gi) / \Sigma Ci$$

where, Ci is the number of credits of the ith subject and Gi is the grade point scored by the student in the ith course.

The Cumulative Grade Point Average (CGPA) will be computed in the same manner considering all the courses undergone by a student over all the semesters of a program, i.e.,

$$CGPA = \Sigma (Ci \times Si) / \Sigma Ci$$

where "Si" is the SGPA of the ith semester and Ci is the total number of credits up to that semester.

Both SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

While computing the SGPA the subjects in which the student is awarded Zero grade points will

also be included.

Grade Point: It is a numerical weight allotted to each letter grade on a 10-point scale. Letter Grade: It is an index of the performance of students in a said course. Grades are denoted by the letters S, A, B, C, D and F.

## Award of Class:

After a student has satisfied the requirements prescribed for the completion of the program and is eligible for the award of B. Tech. Degree, he/she shall be placed in one of the following four classes:

Class Awarded	CGPA Secured
First Class with Distinction	≥ 7.5
	(Without any supplementary
	appearance)
First Class	$\geq 6.5 < 7.5$
Second Class	$\geq$ 5.5 < 6.5
Pass Class	$\geq$ 5.0 < 5.5

Note: \* Students who have written supplementary examinations to fulfil the credit requirement will not be awarded First Class with Distinction. For such students the highest degree that is awarded will be First Class Only.

# CGPA to Percentage conversion Formula = (CGPA – 0.5) x 10

## 20. With-holding of Results

If the candidate has any dues not paid to the university or if any case of indiscipline or malpractice is pending against him/her, the result of the candidate shall be withheld in such cases.

# 21. Multiple Entry / Exit Option

#### (a) Exit Policy:

The students can choose to exit the four-year programme at the end of first/second/third year.

i) **UG Certificate in (Field of study/discipline)** - Programme duration: First year (first two semesters) of the undergraduate programme, 40 credits followed by an additional exit 10-credit bridge course(s) lasting two months, including at least 6- credit job-specific internship/ apprenticeship that would help the candidates acquire job-ready competencies required to enter the workforce.

ii) **UG Diploma (in Field of study/discipline)** - Programme duration: First two years (first four semesters) of the undergraduate programme, 80 credits followed by an additional exit 10-credit bridge course(s) lasting two months, including at least 6- credit job-specific internship/ apprenticeship that would help the candidates acquire job-ready competencies required to enter the workforce.

iii) Bachelor of Science (in Field of study/discipline) i.e., B.Sc. Engineering in (Field of study/discipline)- Programme duration: First three years (first six semesters) of the undergraduate programme, 120 credits.

#### (b) Entry Policy:

Modalities on multiple entry by the student into the B.Tech. programme will be provided in due course of time.

Note: The Universities shall resolve any issues that may arise in the implementation of Multiple Entry and Exit policies from time to time and shall review the policies in the light of periodic changes brought by UGC, AICTE and State government.

# 22. Gap Year Concept:

Gap year concept for Student Entrepreneur in Residence is introduced and outstanding students who wish to pursue entrepreneurship / become entrepreneur are allowed to take a break of one year at any

time after II year to pursue full-time entrepreneurship programme/to establish startups. This period may be extended to two years at the most and these two years would not be counted for the time for the maximum time for graduation. The principal of the respective college shall forward such proposals submitted by the students to the University. An evaluation committee constituted by the University shall evaluate the proposal submitted by the student and the committee shall decide whether to permit the student(s) to avail the Gap Year or not

#### 23. Transitory Regulations

Discontinued, detained or failed candidates are eligible for readmission as and when the semester is offered after fulfillment of academic regulations. Candidates who have been detained for want of attendance or not fulfilled academic requirements or who have failed after having undergone the course in earlier regulations or have discontinued and wish to continue the course are eligible for admission into the unfinished semester from the date of commencement of class work with the same or equivalent subjects as and when subjects are offered, subject to Section 2 and they will follow the academic regulations into which they are readmitted.

Candidates who are permitted to avail Gap Year shall be eligible for re-joining into the succeeding year of their B.Tech from the date of commencement of class work, subject to Section 2 and they will follow the academic regulations into which they are readmitted.

## 24. Minimum Instruction Days for a Semester:

The minimum instruction days including exams for each semester shall be 90 days.

## **25. Medium of Instruction:**

The medium of instruction of the entire B.Tech undergraduate programme in Engineering &Technology (including examinations and project reports) will be in English only.

#### 26. Student Transfers:

Student transfers shall be as per the guidelines issued by the Government of Andhra Pradesh and the Universities from time to time.

#### 27. General Instructions:

- a. The academic regulations should be read as a whole for purpose of any interpretation.
- b. Malpractices rules-nature and punishments are appended.
- c. Where the words "he", "him", "his", occur in the regulations, they also include "she", "her", "hers", respectively.
- d. In the case of any doubt or ambiguity in the interpretation of the above rules, the decision of the Vice-Chancellor is final.
- e. The Universities may change or amend the academic regulations or syllabi at any time and the changes or amendments shall be made applicable to all the students on rolls with effect from the dates notified by the Universities.
- f. In the case of any doubt or ambiguity in the interpretation of the guidelines given, the decision of the Vice-Chancellor / Head of the institution is final.

	Nature of Malpractices/Improper conduct	Punishment
1.a	If the candidate possesses or keeps accessible in examination hall, any paper, note book, programmable calculators, Cell phones, pager, palm computers or any other form of material concerned with or related to the subject of the examination (theory or practical) in which he is appearing but has not made use of (material shall include any marks on the hady of the condidate which can be used	<ul> <li>Expulsion from the examination hall and cancellation of the performance in that subject only.</li> <li>To keep the CC footage of the act as an evidence.</li> <li>To obtain a statement from student and get it authorized by observer and Chief superintendent</li> </ul>

# **Regulations for MALPRACTICES during the conduct of examinations**

	aid in the subject of the examination) - <b>FIRST</b>	
1.b	If the candidate possesses or keeps accessible in examination hall, any paper, note book, programmable calculators, Cell phones, pager, palm computers or any other form of material concerned with or related to the subject of the examination (theory or practical) in which he is appearing but has not made use of (material shall include any marks on the body of the candidate which can be used as an aid in the subject of the examination) - <b>SECOND TIME</b> (whether copied or not)	<ul> <li>Expulsion from the examination hall and cancellation of the performance in that subject and all other subjects the candidate has already appeared including practical examinations, project work and shall not be permitted to appear for the remaining examinations of the subjects of that Semester/year.</li> <li>To keep the CC footage of the act as an evidence.</li> <li>To obtain a statement from student and get it authorized by observer and Chief superintendent.</li> </ul>
1.c	If the candidate possesses or keeps accessible in examination hall, any paper, note book, programmable calculators, Cell phones, pager, palm computers or any other form of material concerned with or related to the subject of the examination (theory or practical) in which he is appearing but has not made use of (material shall include any marks on the body of the candidate which can be used as an aid in the subject of the examination) - <b>REPITITION OF THE ABOVE ACT</b> (After second time and whether copied or not) If the candidate gives assistance or guidance or	<ul> <li>Nature of punishment to be given for the improper conduct shall be as per the recommendations of the committee.</li> <li>The committee comprising of Principal, Vice principal, Chief superintendent, Controller of Examinations and HoD to discuss and initiate the action to be taken and recommend.</li> <li>To keep the CC footage of the act as evidence.</li> <li>To obtain a statement from student and invigilator and authorized by Chief superintendent.</li> <li>Expulsion from the examination hall and</li> </ul>
2.4.	receives it from any other candidate orally or by any other body language methods.	<ul> <li>cancellation of the performance in that subject only of all the candidates involved.</li> <li>To keep the CC footage of the act as an evidence</li> </ul>
2.b	If the candidate communicates through cell phones / through any other means with any candidate or persons in or outside the exam hall in respect of any matter. (i) If the communication is with the person(s) who belongs to our college.	<ul> <li>Confiscation of the mobile or electronic gadgets involved and Expulsion from the examination hall and cancellation of the performance in that subject and all other subjects the candidate has already appeared including practical examinations, project work and shall not be permitted to appear for the remaining examinations of the subjects of that Semester/year.</li> <li>To obtain all relevant proofs of evidence from the Mobile/ gadgets and handing over of the same to the candidate.</li> <li>To keep the CC footage of the act as evidence.</li> <li>To obtain a statement from student and invigilator and authorized by observer and Chief superintendent.</li> </ul>
	<ul><li>(ii) If the communication is with the person(s) outside the campus or people who are not related to our college.</li></ul>	Confiscation of the mobile or electronic gadgets involved and Expulsion from the examination hall and cancellation of the performance in that subject and all other subjects the candidate has already appeared including practical examinations, project work and shall not be permitted to appear for the

		<ul> <li>remaining examinations of the subjects of that Semester/year.</li> <li>To obtain all relevant proofs of evidence from the Mobile/ gadgets and handing over of the same to the candidate.</li> <li>To keep the CC footage of the act as evidence.</li> <li>To obtain a statement from student and invigilator and authorized by observer and Chief superintendent.</li> <li>The person(s) involved should be handed over to the police and a case is registered against him.</li> </ul>
3.	If the candidate impersonates any other candidate in connection with the examination.	<ul> <li>The candidate who has impersonated shall be expelled from examination hall. The candidate is also debarred and forfeits the seat. The performance of the original candidate, who has been impersonated, shall be cancelled in all the subjects of the examination (including practical's and project work) already appeared and shall not be allowed to appear for examinations of the remaining subjects of that semester/year. The candidate is also debarred for two consecutive semesters from class work and all University examinations. The continuation of the course by the candidate is subject to the academic regulations in connection with forfeiture of seat. If the imposter is an outsider/candidate not on rolls, he will be handed over to the police and a case is registered against him.</li> <li>To constitute a committee comprising of Principal, Vice principal, Chief superintendent, Observer, Controller of Examinations and HoD to discuss and initiate the above action with documented proofs.</li> <li>To keep the CC footage of the act as an evidence.</li> <li>To obtain a statement from student, invigilator, subject expert and authorized by observer and Chief superintendent.</li> </ul>
4	If the candidate mishandles the Answer book or additional sheet or takes out or arranges to send out the question paper during the examination or answer book or additional sheet, during or after the examination. Also, if the answer script is mutilated / damaged disturbing the shape, of the script, answers, the bar code intentionally.	<ul> <li>Expulsion from the examination hall and cancellation of performance in that subject and all the other subjects the candidate has already appeared including practical examinations and project work and shall not be permitted for the remaining examinations of the subjects of that semester.</li> <li>In addition to the above punishment, a committee shall be constituted and recommends appropriate punishment for the improper conduct.</li> <li>To keep the CC footage of the act as an evidence.</li> <li>To Obtain a statement from student and invigilator and authorized by observer and Chief superintendent.</li> </ul>
5.	Uses objectionable, abusive or offensive language in the Examination hall.	<ul> <li>Expulsion from the examination hall and cancellation of the performance in that subject only.</li> <li>To Obtain a statement from student and invigilator and get it authorized by Observer and Chief superintendent.</li> </ul>

6.	Refuses to obey the orders of the Chief Superintendent/ACE/ any officer on duty or misbehaves or creates disturbance of any kind in and around the examination hall or organizes a walk out or instigates others to walk out, or threatens the officer- in charge or any person on duty in or outside the examination hall of any injury to his person or to any of his relations whether by words, either spoken or written or by signs or by visible representation, assaults the officer-in-charge, or any person on duty in or outside the examination hall or any of his relations, or indulges in any other act of misconduct or mischief which result in damage to or destruction of property in the examination hall or any part of the College campus or engages in any other act which in the opinion of the officer on duty amounts to use of unfair means or misconduct or has the tendency to disrupt the orderly conduct of the examination.	<ul> <li>In case of students of the college, they shall be expelled from examination halls and cancellation of their performance in that subject and all other subjects the candidate(s) has (have) already appeared and shall not be permitted to appear for the remaining examinations of the subjects of that semester. The candidates also are debarred and forfeit their seats. In case of outsiders, they will be handed over to the police and a police case is registered against them.</li> <li>To constitute a committee comprising of Principal, Vice principal, Chief superintendent, Observer, Controller of Examinations and HoD to discuss and initiate the above action with documented proofs</li> <li>To keep the CC footage of the act as an evidence.</li> <li>To Obtain a statement from student and invigilator and authorized by observer and Chief</li> </ul>
7.	Leaves the exam hall taking away answer script or intentionally tears of the script or any part thereof inside or outside the examination hall.	<ul> <li>superintendent.</li> <li>Expulsion from the examination hall and cancellation of performance in that subject and all the other subjects the candidate has already appeared including practical examinations and project work and shall not be permitted for the remaining examinations of the subjects of that semester/year. The candidate is also debarred for two consecutive semesters from class work and all University examinations. The continuation of the course by the candidate is subject to the academic regulations in connection with forfeiture of seat.</li> <li>To constitute a committee comprising of Principal, Vice principal, Chief superintendent, Observer, Controller of Examinations and HoD to discuss and initiate the above action.</li> <li>To keep the CC footage of the act as an evidence.</li> <li>To Obtain a statement from student and invigilator and authorized by observer and Chief</li> </ul>
8.	Possess any lethal weapon or firearm in the examination hall.	<ul> <li>superintendent.</li> <li>Expulsion from the examination hall and cancellation of the performance in that subject and all other subjects the candidate has already appeared including practical examinations and project work and shall not be permitted for the remaining examinations of the subjects of that semester/year. # LET US MARE MVGR A RAGGING FREE CAMPUS Ragging ABSOLUTELY NO TO RAGGING

- 1. Ragging is prohibited as per Act 26 of A.P. Legislative Assembly, 1997.
- 2. Ragging entails heavy fines and/or imprisonment.
- 3. Ragging invokes suspension and dismissal from the College.
- 4. Outsiders are prohibited from entering the College and Hostel without permission.
- 5. Girl students must be in their hostel rooms by 7.00 p.m.
- 6. All the students must carry their Identity Cards and show them when demanded
- 7. The Principal and the Wardens may visit the Hostels and inspect the rooms any time.

# ACADEMIC REGULATIONS (R23) FOR B.TECH. (LATERAL ENTRY SCHEME)

(Effective for the students getting admitted into II year through Lateral Entry Scheme from the Academic Year 2024-2025 onwards)

# 1. Award of the Degree

- (a) Award of the B.Tech. Degree / B.Tech. Degree with a Minor if he/she fulfils th following:
  - (i) Pursues a course of study for not less than three academic years and not more than six academic years. However, for the students availing Gap year facility this period shall be extended by two years at the most and these two years would in addition to the maximum period permitted for graduation (Six years).
  - (ii) Registers for 120 credits and secures all 120 credits.

## (b) Award of B.Tech. degree with Honors

A student will be declared eligible for the award of the B.Tech. with Honors if he/she fulfils the following:

- Student secures additional 15 credits fulfilling all the requisites of a B.Tech. program i.e., 120 credits. (ii) Registering for Honors is optional.
- (iii) Honors is to be completed simultaneously with B.Tech. programme.
- 2. Students, who fail to fulfil the requirement for the award of the degree within  $\underline{six}$  consecutive academic years from the year of admission, shall forfeit their seat.

## 3. Minimum Academic Requirements

The following academic requirements have to be satisfied in addition to the requirements mentioned in item no.2

- i. A student shall be deemed to have satisfied the minimum academic requirements and earned the credits allotted to each theory, practical, design, drawing subject or project if he secures not less than 35% of marks in the end examination and a minimum of 40% of marks in the sum total of the mid semester evaluation and end examination taken together.
- ii. A student shall be promoted from III year to IV year if he/she fulfils the academic requirements of securing 40% of the credits (any decimal fraction should be rounded off to lower digit) in the subjects that have been studied up to V semester.

And in case if student is already detained for want of credits for particular academic year, the student may make up the credits through supplementary exams of the above exams before the commencement of IV year I semester class work of next year.

# 4. Course Pattern

- i) The entire course of study is three academic years on semester pattern.
- ii) A student eligible to appear for the end examination in a subject but absent at it or has failed in the end examination may appear for that subject at the next supplementary examination offered.
- iii) When a student is detained due to lack of credits/shortage of attendance the student may be re-admitted when the semester is offered after fulfilment of academic regulations, the student shall be in the academic regulations into which he/she is readmitted.
- **5.** All other regulations as applicable for B. Tech. Four-year degree course (Regular) will hold good for B. Tech. (Lateral Entry Scheme).

5	PE - V	Reinforced & Deep Learning	3				

IOT & Cyber Security including Blockchain Technology (Thread – II)			
S.No.	<b>Professional Elective</b>	Course Title	Credits
1	PE - I	Principles of IoT	2
2	PE - II	Cryptography and Information Security	3
3	PE - III	Cloud Computing & Virtualization	2
4	PE - IV	Sensors and Sensing Systems	3
5	PE - V	Block Chain Technology & Applications	3

Data Science (Thread – III)			
S.No.	Professional Elective	Course Title	Credits
1	PE - I	Data Ware Housing & Data Mining	2
2	PE - II	Statistical & Mathematical Foundations of Data Analytics	3
3	PE - III	Data Analytics & Tools	2
4	PE – IV	Machine Learning Algorithms & Techniques	3
5	PE - V	Statistical Regression & Time Series Data Analysis	3

DS & ML – Tools & Services (Thread – IV)			
S.No.	Professional Elective	Course Title	Credits
1	PE - I	Data Ware Housing & Data Mining	2
2	PE - II	Open Databases & R Programming	3
3	PE – III	Artificial Intelligence: Principles & Techniques	2
4	PE - IV	Machine Learning Algorithms & Techniques	3
5	PE - V	Semantic and Sentiment Analysis	3

Business Intelligence (Thread – V)			
S.No.	Professional Elective	Course Title	Credits
1	PE - I	Data Ware Housing & Data Mining	2
2	PE - II	Statistical Regression & Time Series Data Analysis	3
3	PE - III	Data Analytics & Tools	2
4	PE - IV	Machine Learning Algorithms & Techniques	3
5	PE - V	Mean Stack Web Development	3

Computer Networks (Thread – VI)			
S.No.	Professional Elective	Course Title	Credits
1	PE - I	Switching, Routing & Wireless Essentials	2
2	PE - II	Cryptography and Information Security	3
3	PE – III	Information Security and Management Standards	2
4	PE - IV	Enterprise Networking, Security & Automation	3
5	PE - V	Ad-hoc Networks	3

**Open Electives Offered by CSE, IT & Allied Branches to Other Departments** 

S. No.	Course Title
1	Fundamentals of Data Structures
2	Basics of Operating Systems
3	Basics of Computer Networks
4	Object Oriented Programming with java
5	Basics of Database Management Systems
6	Web Design and Development

# **Open Electives Offered by Other Departments**

# **Mechanical Engineering Department**

S. No.	Course Title
1	Introduction to Operations Research
2	Fundamentals of Supply Chain Management
3	Fundamentals of Product Lifecycle Management
4	Corporate Leadership & Change Management
5	Solar and Wind Energy
6	Introduction to Robotics

# **EEE Department**

S. No.	Course Title
1	Electrical Vehicles
2	Embedded Systems
3	Renewable Energy Sources & Integration
4	Electrical Wiring, Estimation and Costing
5	MATLAB Programming & Simulink
6	Soft Computing Techniques

# ECE Department

S. No	Course Title
1	Principles of Mobile Communications
2	Basics of VLSI Design
3	Sensors and Transducers
4	Drone Technology
5	Embedded Systems
6	Basics of Signal Processing

# **Chemical Engineering Department**

S. No	Course Title
1	Environment Impact Assessment
2	Non-Conventional Sources of Energy
3	Waste to Energy Conversion
4	Industrial Safety & Hazards Management
5	Industrial Pollution and Control
	Engineering
6	Greenfuel Technologies

# **Civil Engineering Department**

S. No.	Course Title
1	Road Safety Engineering
2	Remote Sensing and Geoinformatics
3	Intelligent Transportation Systems
4	Project Planning and Management
5	Sustainable Materials and Green Buildings
6	Engineering for Sustainable Development

# **MBA Department**

S. No.	<b>Course Title</b>
1	Macro Economics
2	Securities and Financial Instruments
3	Internet Marketing

- **\*** Open Electives I and II can be chosen from other departments.
- ✤ Open Electives III and IV can be done in MOOC and can be either inter or intra disciplinary. If not MOOC, the default option would be Open Elective III and IV. Course cannot be chosen if it is already done by the student.

<b>Open Elective – III</b>					
S.No.	Course Title				
1	Statistical Regression & Time Series Data Analysis				
2	Cryptography and Information Security				
3	Statistical & Mathematical Foundations of Data Analytics				
4	Open Databases & R Programming				

	<b>Open Elective – IV</b>					
S.No.	S.No. Course Title					
1	Semantic and Sentiment Analysis					
2	Network Security & Cyber Forensic Laws					
3	Multivariate and Stochastic Analytics with R					
4	Data Visualization & Reporting Tools					
5	Block Chain Technology & Applications					

# **LIST OF HONORS COURSES**

# ✤ Course cannot be chosen if it is already done by the student.

S. No.	Course Title				
1	Semantic and Sentiment Analysis (If not already studied, it is mandatory for Thread- I group and optional for other Thread groups)	3			
2	Network Security & Cyber Forensic Laws (If not already studied, it is mandatory for Thread- II group and optional for other Thread groups)	3			
3	Multivariate and Stochastic Analytics with R (If not already studied, it is mandatory for Thread- III group and optional for other Thread groups)	3			
4	Data Visualization & Reporting Tools (If not already studied, it is mandatory for Thread- IV group and optional for other Thread groups)	3			
5	Block Chain Technology & Applications (If not already studied, it is mandatory for Thread- V & VI groups and optional for other Thread groups)	3			
6	Machine Learning Algorithms & Techniques	3			
7	Reinforced & Deep Learning	3			
8	Sensors and Sensing Systems	3			
9	Statistical Regression & Time Series Data Analysis	3			
10	Mean Stack Web Development	3			
11	Enterprise Networking, Security & Automation	3			
12	Ad-hoc Networks	3

	semicondu	ctor band model.								
SYL	LABUS									
Unit	Ι		WAVE OPTICS			<b>9</b> h	r			
Inte	rference: In	troduction - Principle	of superposition -Interference	of lig	ght - Ir	nterferen	ice in			
thin	films (Refl	ection Geometry) &	applications - Colors in thin	films	- New	vton's R	lings-			
Dete	rmination o	f wavelength and ref	ractive index. <b>Diffraction:</b> Ir	ntroduc	ction -	Fresne	l and			
Frau	nhoter diffi	actions - Fraunhofer	diffraction due to single sl	1t, doi	uble s	lit & N	-slits			
(Qualitative) – Diffraction Grating - Dispersive power and resolving power of Grating										
(Qua	litative). Po	Diarization: Introduction	on -1 ypes of polarization - 1	Polariz	ation	by refie	ction,			
I Init			S FIISHI -Hall wave allu Qualu		e plate	5. 0 h				
Unit II UKYSIALLUGKAPHY AND X-KAY DIFFRACTION 9 hr										
<b>Crystanography:</b> Space fattice, dasis, Unit Cell and fattice parameters – Bravais Lattices – $(3D)$ coordination number packing fraction of SC BCC & ECC Miller										
(3D) = coordination number - packing fraction of SC, BCC & FCC - Millerindices – separation between successive (hkl) planes X-ray diffraction. Bragg's law - X-ray										
Diffractometer – crystal structure determination by Laue's and powder methods.										
Unit	III	DIELECTRIC	AND MAGNETIC MATERI	ALS		<b>9</b> h	r			
Diel	ectric Mat	erials: Introduction	- Dielectric polarization -	Diele	ctric 1	polarizal	oility,			
Susceptibility, Dielectric constant and Displacement Vector –Relation between the electric										
vectors - Types of polarizations- Electronic (Quantitative), Ionic (Quantitative) and Orientation										
polarizations (Qualitative) - Lorentz internal field - Clausius- Mossotti equation - complex										
dilectric constant – Frequency dependence of polarization – dielectric loss. Magnetic Materials:										
Intro	duction -	Magnetic dipole me	oment - Magnetization-Mag	netic	susce	ptibility	and			
permeability – Atomic origin of magnetism - Classification of magnetic materials: Dia, para,										
Ferro, anti-ferro& Ferri magnetic materials - Domain concept for Ferromagnetism & Domain										
walls (Qualitative) - Hysteresis - soft and hard magnetic materials.										
--	----------------------	--	--							
Unit IV QUANTUM MECHANICS AND FREE ELECTRON THEO	ORY 9 hr									
Quantum Mechanics: Dual nature of matter - Heisenberg's Uncertain	inty Principle -									
Significance and properties of wave function - Schrodinger's time independe	nt and dependent									
wave equations- Particle in a one-dimensional infinite potential well.	<b>Free Electron</b>									
Theory: Classical free electron theory (Qualitative with discussion of merits	and demerits) -									
Quantum free electron theory -electrical conductivity based on quantum free	electron theory -									
Fermi-Dirac distribution - Density of states - Fermi energy.										
Unit V SEMICONDUCTORS	9 hr									
Semiconductors: Formation of energy bands – classification of crystalline	solids - Intrinsic									
semiconductors: Density of charge carriers - Electrical conductivity - Fermi	level – Extrinsic									
semiconductors: density of charge carriers - dependence of Fermi en	ergy on carrier									
concentration and temperature - Drift and diffusion currents - Einstein's equa	tion - Hall effect									
and its applications.

	INTRODUCTION TO PROGRAMMING							
<b>R23CSFT201</b>	(0	Common to All branches of Engineering)						
K25C5E1201	Total Contact Hours	45 (L)	L	Т	P	C		
	Pre-requisite	NIL	3	0	0	3		
Course Object	ive							
• The cou	urse aims to equip stu	idents with advanced proficiency in	n C	prog	ramm	ing,		
fostering	g problem-solving skills	and algorithmic design, while ensur	ing n	naster	y in	data		
manipul	ation, function impleme	ntation, and file handling techniques.						
Course Outcon	nes							
1	Students will develop	essential problem-solving skills an	d abi	lity t	to de	sign		
	efficient algorithms to	cient algorithms to address a wide range of challenges effectively.						
2	Students will formulate	e solutions by constructing well-organ	ized a	and e	fficie	nt C		
	programs, effectively	ograms, effectively using data types, program flow, and loop structures with						
	appropriate utilization	of keywords, operators and identifiers	•					
3	Students will have the	e ability to experiment on arrays, poi	nters	and	dyna	mic		
	memory allocation, ef	fectively to develop strategies for ma	nipul	ates	data v	with		
	precision and efficienc	y.						
4	Students will constru	act solutions by utilizing functions	s, str	ing	handl	ing,		
	applying variable sco	ope and storage classes effectively,	and	impl	emen	ting		
	recursion through C pr	ogramming principles.		•		10		
5	Students will create ar	id develop skills in handling structure	es, un	ions,	and s	self-		
	referential structures,	and demonstrate proficiency in file f	iandli	ng te	chnic	jues		
	for input and output op	berations in C.			+:			
0	Students will develop	and author comprehensive programm	iing e	exper	inse n	n C,		
	function implementation	er problem-solving skills, allay and po		man	ipuiai	JOII,		
	file operations	on, sumg nandning, and data structure	uum	Zatioi	1 uno	ugn		
SVLLABUS	The operations.							
UNIT I	INTRODUCTIC	N TO COMPLITER PROBLEM SO	N VI	NG	Q	hr		
Programs and	Algorithms Computer	· Problem Solving Requirements	hase		Proh	lem		
Solving Proble	em Solving Strategies	Top-Down Approach. Algorithm [	)esign	ning	Prog	ram		
Verification. Im	proving Efficiency. Alg	orithm Analysis and Notations	00151	<u>6</u> ,	1105	Tunn		
UNIT II	INTRO	DUCTION TO C PROGRAMMING	1		9	hr		
Introduction. S	structure of a C Prog	ram. Comments. Keywords. Identi	, fiers.	Data	a Tv	pes.		
Variables. Con	stants. Input/output St	atements. Operators, Type Conversi	on. (	Contr	ol Fl	OW.		
Relational Exp	ressions: Conditional Br	anching Statements: if, if-else, if-else	e—if.	swite	ch. B	asic		
Loop Structure	es: while, do-while loc	ops, for loop, nested loops, The Bi	reak	and	Conti	inue		
Statements, got	o statement.	r, r, r, r,						
UNIT III		ARRAYS & POINTERS			9	hr		
Introduction, O	perations on Arrays, A	rrays as Function Arguments, Two D	imen	siona	l Arr	ays,		
Multidimension	al Arrays. Pointers: C	oncept of a Pointer, Declaring and	Initia	lizing	g Poi	nter		
Variables, Point	ter Expressions and Add	lress Arithmetic, Null Pointers, Generi	c Poi	nters,	, Poin	ters		
as Function Arg	as Function Arguments, Pointers and Arrays, Pointer to Pointer, Dynamic Memory Allocation.							
Dangling Pointer, Command Line Arguments.								
UNIT IV		FUNCTIONS & STRINGS			9	hr		
Introduction Fu	nction: Declaration, Fur	nction Definition, Function Call, Cates	gories	of F	uncti	ons,		
Passing Parame	eters to Functions, Sco	ppe of Variables, Variable Storage	Classe	es. R	ecurs	ion.		
Strings: String	Fundamentals, String F	Processing with and without Library	Funct	tions,	Poin	iters		
and Strings.								

UNIT V	STRUCTURES & FILE HANDLING	9 hr
Structures, Uni	ons, Bit Fields: Introduction, Nested Structures, Arrays of Structures, Str	ructures
and Functions,	Self-Referential Structures, Unions, Enumerated Data Type Enum va	riables,
Using Typedef	keyword, Bit Fields. Data Files: Introduction to Files, Using Files in C, F	Reading
from Text Files	, Writing to Text Files, Random File Access.

		CC	DMMUNICATIVE ENGLISH LAB	}			
R23	HSSL001	(Cor	mmon to All Branches of Engineering	g)			
		Total Contact Hours	30 (P)	L	Т	Р	С
		Pre-requisite	Nil	0	0	2	1
Cou	rse Object	ive					
•	• The mai	n objective of the cours	se is to expose the students to a variet	y of s	self-		
	instructi	onal, learner friendly n	nodes of language learning. The stude	nts w	vill ge	et trai	ned
	in basic	communication skills t	o become industry ready.				
Cou	rse Outcor	nes					
1	1 Demonstrate understanding of the different aspects of English language proficiency with						
	emphasis on LSRW skills.						
2	Develop of	communication skills	by exposing the student to various	lang	uage	learı	ning
	activities.						
3	Analyse a	nd apply techniques to	comprehend information in audio/vid	eo m	ateria	ıl.	
4	Develop p	professionalism by facil	itating debates and group discussions	•			
5	Demonstra	ate effective presentation	on skills.				
List	of Topics						
1	Communication Skills & JAM						
2	Articulatio	on of sounds & Listenin	ng to comprehend information				
3	Role Play or Conversational Practice						
4	E-mail Writing						
5	Resume Writing, Cover letter writing						
6	Group Discussions-methods & practice						
7	Debates - Methods & Practice						
8	PPT Presentations/ Poster Presentation						
9	Interview skills

	ENGINEERING PHYSICS LAB						
R23P	HYL101	(Ce	ommon to All Branches of Engineerin	<u>g</u> )			
11201		Total Contact Hours	30 (P)	L	Т	P	С
		Pre-requisite	Higher Secondary School Physics	0	0	2	1
Cours	se Objecti	ve					
•	To comp	lement classroom learning	ing with laboratory experiments. Cali	bratic	n of	instru	ments
	like trav	velling-microscope, sp	ectrometer, etc. and to make pr	recise	me	asurer	nents.
	Understa	nd the physical princip	les involved in the conduct of experimental	ment	and r	neasu	re the
	relevant	experimental variables.	Apply the analytical techniques and	grap	hical	analy	sis to
	experime	ental data and draw nec	cessary conclusions. Prepare a concis	se and	d clea	ar tec	nnical
	report to	communicate his/her ex	perimental understanding.				
Cours	se Outcom	ies					
1	Student w	vill be able to <b>conduct</b> e	xperiments to reconnoitre the interfere	ence a	and d	iffract	ion
-	patterns o	of light.					
2	Student w	vill be able to <b>find</b> the si	gnature variation of magnetic field du	e to c	urren	t; and	the
2	hysteresis	s energy loss in a magne	tic material.	1	•	1.1 4	
3	Student w	(11) be able to <b>measure</b> t	he physiognomies of the semiconduct	or de	vices	like t	he
4	energy ba	and gap ( $E_g$ ) and the tem	perature coefficient of resistance ( $\alpha$ ).	1	•	11.	
4	Student w	it will be able to <b>observe</b> the pendulum oscillations and <b>determine</b> the impelling					
F	parameter Student v	s like rigidity modulus ( $\eta$ ), acceleration due to gravity (g), etc.					
3	fraguana	it will be able to <b>verify</b> the laws of vibrations and <b>determine</b> the unknown fork					
Listo	f E-moning	opta	aves on surficience strings.				
	Dotormin	etion of radius of current	ure of a given plane convex long by	Iourto	n'a m	<b>n</b> a c	
1	Determination of wavelengths of different spectral lines in mercury spectrum using						
Z	diffraction grating in normal incidence configuration.						
3	Study the variation of B versus H by magnetizing the magnetic material (B-H curve).						
4	Determination of wavelength of Laser light using diffraction grating						
5	Determination of energy gap of a semiconductor using p-n junction diode						
6	Magnetic field along the axis of a current carrying circular coil by Stewart and Gee's						
	Method						
7	Determination of temperature coefficients of a thermistor						
8	Determination of rigidity modulus of the material of the given wire using Torsional						
	pendulum						
9	Determination of frequency of the electrically maintained tuning fork by Melde's experiment						
10	Sonometer: Verification of the laws of stretched string						
Addit	Additional Experiments						
1	Determin	ation of acceleration due	e to gravity and radius of Gyration by	using	a co	mpou	nd
	pendulum

	ENGINEERING WORKSHOP							
	(Common to All Branches of Engineering)							
<b>R23MECW201</b>	Total Contact Hours 45 (P)	L	Т	Р	С			
	Pre-requisite Nil	0	0	3	1.5			
<b>Course Objectiv</b>	e							
• Students	will understand various engineering trades such as carp	entry	, tin	smi	ithy			
foundry f	abrication fitting and electrical house wiring skills and requi	red s	, un afety	v prac	ctice			
required a	nd address common trouble shooting in day- today practice.	100 .	Jaroty	pru				
Course Outcome	s							
1	Identify workshop tools and their operational capabilities.							
2	Practice on manufacturing of components using workshop trad	les in	cludi	ng fit	ting,			
	carpentry, foundry and welding.			U	U,			
3	Apply concept of fitting and sheet metal understanding in variou	s app	licati	ons.				
4	Apply basic electrical engineering knowledge for House Wiring	Prace	tice.					
List of Experime	ents							
1	Carpentry: Making of Dove tail joint							
2	Carpentry: Making of half lap joint							
3	Sheet Metal Working: Manufacturing Taper tray using G.I	Shee	et					
4	4 Sheet Metal Working: Manufacturing conical funnel using G.I Sheet							
5	Fitting: Manufacturing V-fit using mild steel plate G.I Sheet							
6	Fitting: Manufacturing Dovetail fit using mild steel plate							
7	Electrical Wiring: Parallel connection for bulbs along with fuse and switch.							
8	Electrical Wiring: Series connection for bulbs along with fuse and switch.							
9	Foundry: Green sand mold making using simple / single piece pattern.							
10	Welding: Fabrication of Butt weld joint using DC ARC we	lding	5					
11	Welding: Fabrication of Butt weld joint using DC ARC welding							
12	Plumbing: Preparation of Pipe joints with coupling for same diameter and with				with			
reducer for different diameters.								
Additional Experiments								
1	Making of study lamp using combination of carpentry and	hous	e wir	ing				
	trades.							
2	Frame making of dissemination using carpentry and welding.							
3 Electric Load calculation in a living room.								
Demonstration Experiments								
I         Safety practices and precautions to be observed in workshop.								
2 Demonstration of connection in street lights using single control.								
LEAKNING KESUUKUES

4	Week-4: Internet & V 1) Orientation & V their Local Ar they configure demonstrate to Without intern on the LAN.	World Wide Web Connectivity Boot Camp: Stude ea Network and access the Inte e the TCP/IP setting. Final the instructor how to access the et connectivity, instructors must	nts sho ernet. ] ly, stu e webs t simul	ould could c	onnec proce s sho nd em e WV	t to ess, uld ail. VW			

	2) Web Browsers, Surfing the Web: Students customize their web
	browsers with the LAN proxy settings, bookmarks, search toolbars,
	and pop-up blockers. Also, plug-ins like Macromedia Flash and
	JRE for applets should be configured.
5	Week-5:
C C	1) Search Engines & Netiquette: Students should know what search
	engines are and how to use the search engines. A few tonics would
	be given to the students for which they need to search on Google
	This should be demonstrated to the instructors by the student
	2) Cyber Hygione: Students would be exposed to the various threats
	2) Cyber Hygiene. Students would be exposed to the various theats
	on the internet and asked to configure their computers to be safe on
	the internet. They need to customize their browsers to block pop-
	ups, and block active X downloads to avoid viruses and worms.
6	Week-6: LaTeX and WORD
	1) Word Orientation: The mentor needs to give an overview of LaTeX
	and Microsoft (MS) Office or equivalent (FOSS) tool word:
	Importance of LaTeX and MS office or equivalent(FOSS) tool
	Word as word Processors, Details of the four tasks and features that
	would be covered in each, Using LaTeX and word – Accessing,
	overview of toolbars, saving files, Using help and resources, rulers,
	format painter in word.
	2) Using LaTeX and Word to create a project certificate. Features to
	be covered:- Formatting Fonts in Word, Drop Cap in Word,
	Applying Text effects, Using Character Spacing, Borders, and
	Colors, Inserting Header and Footer, Using Date and Time options
	in LaTeX and Word.
7	Week-7:
	1) Creating project abstract Features to be covered: Formatting
	Styles, Inserting table, Bullets and Numbering, Changing Text
	Direction, Cell alignment, Footnote, Hyperlink, Symbols, Spell
	Check, Track Changes.
	2) Creating a Newsletter: Features to be covered:- Table of Contents,
	Newspaper columns, Images from files and clipart, Drawing
	toolbar and Word Art. Formatting Images, Textboxes, Paragraphs,
	and Mail Merge in word.
8	Week-8: EXCEL
_	Excel Orientation: The mentor needs to tell the importance of the MS
	Office or equivalent (FOSS)tool Excel as a Spreadsheet tool give the
	details of the four tasks and features that would be covered in each. Using
	Excel – Accessing an overview of tool bars, saving Excel files. Using help
	and resources.
	1) Creating a Scheduler - Features to be covered: Gridlines. Format
	Cells, Summation, auto-fill, Formatting Text
	2) Calculating GPA - Features to be covered - Cell Referencing
	Formulae in Excel – average, std. deviation, Charts, Renaming and
	Inserting worksheets, Hyperlinking, Count function
9	Week-9:
	1) LOOKUP/LOOKUP : Split cells, freeze panes, group and outline
	Sorting, Boolean and logical operators, Conditional formatting.

10	Week-10. POWERPOINT				
10	1) Students will be working on essential PowerPoint utilities and				
	tools which help them create introductory PowerPoint				
	presentations PPT Orientation Slide Levoute Inserting Text				
	Word Art Formatting Text, Dullats and Numbering Auto Shapes				
	Word Art, Formatting Text, Bunets and Numbering, Auto Snapes,				
	Lines and Arrows in PowerPoint.				
	2) Interactive presentations - Hyperlinks, Inserting –Images, Clip				
	Art, Audio, Video, Objects, Tables and Charts.				
11	Week-11:				
	1) Master Layouts (slide, template, and notes), Types of views				
	(basic, presentation, slide slotter, notes, etc.), and Inserting -				
	Background, textures, Design Templates, Hidden slides.				
12	Week-12: AI TOOLS – Chat GPT				
	1) Prompt Engineering: Experiment with different prompts to see				
	how the model responds. Try asking questions, starting				
	conversations, or even providing incomplete sentences to see how				
	the model completes them.				
	2) Creative Writing: Use the model as a writing assistant. Provide the				
	beginning of a story or a scene description, and let the model				
	generate the rest of the content. This can be a funway to				
	brainstorm creative ideas.				
	3) Language Translation: Experiment with translation tasks by				
	providing a sentence in one language and asking the model to				
	translate it into another language. Compare the output to see how				
	accurate and fluent the translations are.

	C()	<b>COMPUTER PROGRAMMING LAB</b> (Common to all branches of Engineering)						
R23CSEL201	Total Contact Hours	45 (P)	L	Т	Р	С		
	Pre-requisite	NIL	0	0	3	1.5		
<b>Course Objecti</b>	ive							
• The cou	rse aims to give students	s hands - on experience and train the	m on	the co	oncep	ots of		
the C- pr	rogramming language.							
<b>Course Outcon</b>	nes							
1	Read, understand, and	trace the execution of programs writt	en in	C lan	guag	e.		
2	Select the right control	structure for solving the problem.						
3	Develop C programs	which utilize memory efficiently	using	prog	gram	ming		
	constructs like pointers	5.						
4	Develop, Debug and	Execute programs to demonstrate	the a	applic	atior	ns of		
	arrays, functions, basic	c concepts of pointers in C.						
	LIST	<b>COF EXPERIMENTS</b>						
1	WEEK 1:							
	Familiarization with pr	rogramming environment.						
	i Basic Linux er	i Basic Linux environment and its editors like Vi, Vim & Emacs, gedit						
	etc.							
	ii Exposure to Tu	irbo C, gcc						
	iii Writing simple	programs using printf(), scanf()						
2	WEEK 2							
	Developing the algorith	hms/flowcharts for the following sam	ple p	rograi	ns			
	1 Sum and average	ge of 3 numbers						
	11 Conversion of I	Fanrenneit to Celsius and vice versa						
2	m Simple interest	calculation						
3	WEEK 5 Simple computational	problems using arithmetic expression	C					
	i Finding the sau	problems using antimetic expression	.5.					
	ii Finding compo	und interest						
	iii Area of a trianc	ale using heron's formulae						
	iv Distance travel	led by an object						
4	WEEK 4:							
	Simple computationa	al problems using the operator	, pr	ecede	nce	and		
	associativity							
	i Evaluate the following expressions.							
	a. $A+B*C+(D*E) + F*G$							
	b. A/B*C-B+A*D/3							
	c. A+++BA							
	d. $J = (i++) + (++i)$							
	ii Find the maximum of three numbers using conditional operator							
	iii Take marks of	5 subjects in integers, and find the tot	al, av	erage	in fl	oat		
5	<b>WEEK 5:</b>							
	Problems involving if-	then-else structures.:						
	i Write a C prog	gram to find the max and min of fou	ır nur	nbers	usir	ng if-		
	else.							
	ii Write a C progr	ram to generate electricity bill.

theorem	i	em
i Write a C function to calculate NCR value		Write a C function to calculate NCR value
i Write a C function to find the length of a string	ii	Write a C function to find the length of a string
$\begin{array}{c} \text{iii}  \text{Write a C function to transnose of a matrix} \\ \text{iii}  \text{Write a C function to transnose of a matrix} \\ \end{array}$		The a C function to find the forgut of a sufficiency.
$\mathbf{u}$ write a C function to demonstrate numerical integration of differential		1 Write a C function to transpose of a matrix
1 IV WHEAT INCOMENTATE MOMENTAL MEDICAL MEDICAL INCOMENTATION AT MILLARAMAN		Write a C function to transpose of a matrix.

12	WEEK 12:
	Recursive functions:
	i Write a recursive function to generate Fibonacci series.
	ii Write a recursive function to find the lcm of two numbers.
	iii Write a recursive function to find the factorial of a number.
	iv Write a C Program to implement Ackermann function using recursion.
	v Write a recursive function to find the sum of series.
13	WEEK 13:
	Simple functions using Call by reference, Dangling pointers.
	i Write a C program to swap two numbers using call by reference.
	ii Demonstrate Dangling pointer problem using a C program.
	iii Write a C program to copy one string into another using pointer.
	iv Write a C program to find no of lowercase, uppercase, digits and other
	characters using pointers.
14	WEEK 14:
	File operations
	i Write a C program to write and read text into a file.
	ii Write a C program to write and read text into a binary file using fread()
	and fwrite()
	iii Copy the contents of one file to another file.
	iv Write a C program to merge two files into the third file using command-
	line arguments.
	v Find no. of lines, words and characters in a file vi) Write a C program to
	print last n characters of a given file.

	EN	GINEERING GRAPHICS									
	(Common to All Branches of Engineering)Total Contact Hours75(15L+60P)LTPC										
R23MECD201	Total Contact Hours	75(15L+60P)	L	Т	Р	С					
	Pre-requisite	Basic mathematics,	1	0	4	3					
Course Objective:											
• To enable the students with various concepts like dimensioning, conventions and standards related to Engineering Drawing											
<b>Course Outcomes:</b> On completion of the course, the student should be able to											
1	Apply the principles of curves, scales, orthographic and isometric projections in engineering drawing.										
2	Interpret orthographic p	rojections like front, top and si	de vi	ews	relate	ed					
	to points, lines, planes ar	nd solids.				-					
3	Demonstrate the projec	tion of solids in various posit	ions	in th	e fir	st					
	quadrant.	1									
4	Examine the principles b	behind development of surfaces.									
5	Develop orthographic an	id isometric projections of solids	s.								
SYLLABUS		¥ ¥									
Unit I	CURVES, SC	ALES AND POLYGONS			15 h	r					
Introduction: L	ines, Lettering and Di	mensioning, Geometrical Con	nstruc	tions	an	ıd					
Constructing regula	ar polygons by general met	hods.									
Curves: construct	ion of ellipse, parabola a	nd hyperbola by general, Cyc	loids	, Inv	olute	s,					
Normal and tangen	t to Curves.										
Scales: Plain scales	s, diagonal scales and verni	er scales.									
Unit II	ORTHOGR	APHIC PROJECTIONS			15 h	r					
Orthographic Pr	ojections: Reference pla	ne, importance of reference	lines	or	Plan	e,					
Projections of a point	int situated in any one of th aight Lines: Projections o	e four quadrants. f straight lines parallel to both	refere	ence ]	plane	s,					
perpendicular to o	ne reference plane and pa	rallel to other reference plane,	, incli	ined	to or	ne					
reference plane and	d parallel to the other refere	ence plane. Projections of Straig	ght Li	ine Ir	ncline	ed					
to both the reference	e planes										
Projections of Pla	nes: regular planes Perper	dicular to both reference plane	s, par	allel	to or	ne					
reference plane and	d inclined to the other refer	rence plane; plane inclined to b	oth th	ne ref	erenc	e					
planes.											
Unit III	PROJEC	CTIONS OF SOLIDS			15 h	r					
Projections of Sol	lids: Types of solids: Poly	yhedra and Solids of revolution	n. Pro	ojecti	ons o	of					
solids in simple p	ositions: Axis perpendicu	llar to horizontal plane, Axis	perpe	endici	ular t	0					
vertical plane and	Axis parallel to both the	reference planes, Projection of	Solid	ls wi	th ax	is					
inclined to one refe	erence plane and parallel to	another plane.									
Unit IV	SECTIONS OF SOL	LIDS AND DEVELOPMENT	OF		15 h	r					
		SURFACES									
Sections of Solids:	Perpendicular and inclined	d section planes, Sectional view	s and	True	e shap	be					
of section, Sections	s of solids in simple positio	n only.				,					
Development of S	<b>Surfaces:</b> Methods of Dev	elopment: Parallel line develop	oment	t and	radi	al					
line development.	Development of a cube, pris	sm, cylinder, pyramid and cone.		1	1 7 1						
Unit V	CONVE	KSIUNS OF VIEWS	~		15 h	r					
Conversion of Vie	ews: Conversion of isomet	tric views to orthographic view	s; Co	nver	s10n (	10					
orthographic views	to isometric views.										

Computer graph	ics: Creating 2D&3D drawings of objects including PCB and									
Transformations us	ing AutoCAD

			DATA STRUCTURES				
DOZEEETO	01	(Com	mon to CSE, IT and Allied Branche	s)			
KZSEEEIZ	UI	Total Contact Hours	45 (L)	L	Т	P	С
		Pre-requisite	Basic Programming	3	0	0	3
Course Obj	jecti	ve					
• Stude	ents	will get exposure to	use data structures such as arrays	, linl	ked l	lists,	
stack	cs,qu	eues, trees and will be	e able to select and implement the a	ppro	priate	e data	ì
struc	ture	s to solve the given pro	oblem				
Course Outcomes:							
1	Stu	dents will be able to	apply various searching and sorting	g tec	hniq	ues a	ind
1	anal	lyze their time complex	xities.				
2	Stu	dents will be able to ap	oply Linked Lists and its variants an	d util	ize t	hem	for
2	vari	ous applications.					
3	Stu	dents will be able to c	ompare arrays and Linked Lists and	l con	clud	e wh	ich
5	stor	age structure is approp	riate for the given problem/data struc	cture.			
4	Stu	dents will be able to	develop novel solutions to small sc	ale p	rogra	ammi	ng
	cha	llenges involving data	structures such as stacks, queues, Tre	es			
5	Stu	dents will be able to re-	cognize scenarios where hashing is a	dvan	tageo	ous, a	nd
-	desi	ign hash-based solution	is for specific problems.				
6	Stu	dents will be able to co	llaborate in teams to design and impl	lemei	nt inr	iovat	ive
	solu	itions by choosing and	combining the appropriate data struc	ture(	s).		
SYLLABU	<b>)</b>			D.C.		01	
Unit I		INTRODUCTION	IO LINEAR DATA SIRUCIUR			<b>9 r</b>	ir ain
Definition and importance of linear data structures, Abstract data types (AD1s) and their implementation. Overview of time and arose complexity exclusive for linear data structures.							
implementation, Overview of time and space complexity analysis for linear data structures.							
Selection s	ort	Insertion Sort	Binary Scarcii, Sorting Teeninqu	<b>C</b> 5. 1	<b>J</b> u00	ic sc	лι,
Unit II							
Linked Li	sts:	Singly linked lists re	epresentation and operations doubl	v lin	ked	lists	and
circular lin	circular linked lists. Comparing arrays and linked lists. Applications of linked lists						
Unit III		<u> </u>	STACKS			9 ł	ır
Stacks: In	trod	luction to stacks: pro	operations, implement	ting	stacl	cs us	sing
arrays and	l lin	ked lists, Application	is of stacks in expression evaluat	ion,	back	track	ing,

Cours	Course Outcomes: Student will be able to							
1	Design and analyze simple circuits to verify basic electrical laws and theorems.							
2	Design and analyze electrical circuits to measure resistance. power and energy consumption.							
3	Understan	d the voltage buildup prod	cedure in DC shunt generator.	0,		-		
4	Design sin	nple electronic circuits to	analyze the behavior of electronic con	mpon	ents a	and v	erify	
	their appli	cations.	2	1			2	
5	Explain th	e operation of digital circ	uits.					
List o	f Experime	ents						
1	Verificatio	on of KCL and KVL						
2	Verificatio	on of Superposition theore	em					
3	Measurem	ent of Resistance using W	Vheat stone bridge					
4	Magnetiza	tion Characteristics of DO	C shunt Generator					
5	Measurem	ent of Power and Power f	factor using Single-phase wattmeter					
6	Calculatio	n of Electrical Energy for	Domestic Premises					
7	Plot V-I cl	naracteristics of PN Junct	ion diode A) Forward bias B) Reverse	bias.				
8	Plot V – I	characteristics of Zener D	Diode and its application as voltage Re	gulato	or.			
9	Implement	tation of half wave and fu	ll wave rectifiers	0				
10	Plot Input	& Output characteristics	of BJT in CE and CB configurations					
11	Verificatio	on of Truth Table of ANI	D, OR, NOT, NAND, NOR, Ex-OR, I	Ex-NG	DR g	ates ı	using	
	ICs.				-		-	
12	Verificatio	on of Truth Tables of S-R,	, J-K& D flip flops using respective IC	Cs.				
Addit	tional expen	riments						
1	Measurem	ent of Earth Resistance us	sing Megger					
2	Frequency	response of CE amplifier	r					
3	Simulation	n of RC coupled amplifier	with the design supplied

R23EEEL201		DATA STRUCTURES LAB							
		(Cor Total Canta at Hauna	mmon to CSE, 11 & Allied Branches)	т	т	р	C		
		Total Contact Hours	45 (P)		1	<u>P</u>	15		
Course	o Objectiv	Pre-requisite	INII	U	U	3	1.5		
Cours	Studente v	t will be able to develop pr	no anoma for activing real time problem	ma hr	, aha	ocine			
•	Students V	a data structura concenta	lograms for solving lear time problem			OSIIIE	5		
Cours									
	1 Students will be able to explain the role of linear data structures in organizing and								
1	accessing data efficiently in algorithms								
2	Students will be able to design implement and apply linked lists for dynamic data								
2	storage, d	emonstrating understandi	ng of memory allocation.	ynan	ne uu	u			
3	Students	will be able to develop	programs using stacks to handle re	cursi	ve als	orith	ıms.		
5	manage p	rogram states, and solve r	elated problems.	e ar br	ve uig	501101	,		
4	Students	will be able to apply qu	eue-based algorithms for efficient ta	sk sc	hedu	ling	and		
	breadth-f	irst traversal in graphs an	d distinguish between deques and pr	iority	que	ues,	and		
	apply the	m appropriately to solve	data management challenges.		•				
5	Students	will be able to devise n	ovel solutions to small scale progra	mmi	ng ch	allen	ges		
	involving	data structures such as sta	acks, queues, Trees						
List o	f Experime	nts							
1	Exercise 1	: Array Manipulation							
	i)	Write a program to revers	se an array.						
	i)	C Programs to implemen	t the Searching Techniques – Linear	&Bin	ary S	earch	1		
	ii)	C Programs to implement	t Sorting Techniques – Bubble, Select	ion a	nd In	sertic	n		
-	Sort								
2	Exercise 2: Linked List Implementation								
	1)	Implement a singly linke	d list and perform insertion and deleti	onop	eratio	ons.			
	iii) Solve problems involving linked list traversal and manipulation								
2	III) Solve problems involving linked list traversal and manipulation.								
3	i) Create a program to detect and remove duplicates from a linked list								
	i) Implement a linked list to represent polynomials and performaddition								
	ii) Implement a double-ended queue (deque) with essential operations								
4	Exercise 4	: Double Linked List Im	plementation	10115.					
-	i)	Implement a doubly lin	ked list and perform various operat	ions	tound	lersta	and		
	,	its properties and applica	tions.						
	ii)	Implement a circular lin	ked list and perform insertion, deletion	on, a	nd tra	versa	al.		
5	Exercise 5	Stack Operations							
	i)	Implement a stack using	arrays and linked lists.						
	ii)	Write a program to evalu	ate a postfix expression using a stack.						
	iii)	Implement a program to	check for balanced parentheses using	a stac	k.				
6	Exercise 6	: Queue Operations							
	i)	Implement a queue using	arrays and linked lists.						
	11)	Develop a program to sin	nulate a simple printer queue system.						
7	111)	Solve problems involving	g circular queues.						
/	Exercise 7	: Stack and Queue Appl	ICATIONS						
	1)	Use a stock to evolute or	n infix expression and convert it to no	otfiv					
	11)	Create a program to data	rmine whether a given string is a reli-	suix. ndror	noor	not			
	111)	Create a program to dete	mine whether a given string is a pair	nuror	neor	not.			

	iv) Implement a stack or queue to perform comparison and check for symmetry			
8	Exercise 8: Binary Search Tree			
	i) Implementing a BST using Linked List.			
	ii) Traversing of BST.			
9	Exercise 9: Hashing			
	i) Implement a hash table with collision resolution techniques.			
	ii) Write a program to implement a simple cache using hashing.			
LEAF	RNING RESOURCES			
TEXT	T BOOKS:			
1	Data Structures and algorithm analysis in C, Mark Allen Weiss, Pearson, 2nd			
	Edition.			
2	Fundamentals of data structures in C, Ellis Horowitz, Sartaj Sahni, Susan			
	Anderson-Freed, SiliconPress, 2008			
REFE	REFERENCE BOOKS:

		NSS/NCC/SCOUTS AND GUIDES/COMMUNITY SERVICE					
DISUCCINON		(Co	mmon to All Branches of Engineering	)			
K23115510002		Total Contact Hours	15 (P)	L	Т	P	C
		Pre-requisite	Nil	0	0	1	0.5
Course Objective							
• Th	e obie	ective of introducing t	his course is to impart discipline, cl	haract	ter. f	rater	nity.
tea	mwor	k. social consciousnes	is among the students and engaging	g the	m in	sel <sup>*</sup>	fless
service.							
Course Outcomes							
1	Demonstrate the importance of discipline, character and service motto.						
2	Solv	e some societal issues b	y applying acquired knowledge, facts,	and t	echni	iques	5.
3	Expl	ore human relationships	by analyzing social problems.				
4	Deve	elop service-oriented at	opproach to extend their help for the	fello	w be	ings	and
	dowi	ntrodden people.	1			U	
5	Deve	elop leadership skills and	d civic responsibilities.				
SYLLAB	US						
Unit I	Gene	eral Orientation on N	SS/NCC/ Scouts & Guides/Commu	nity	Servi	ce	5 hr
	activ	ities, career guidance.					
	Activ	vities:					
	i) Co	onducting -ice breaking	g sessions-expectations from the cou	rse-k	nowi	ng	
	perso	nal talents and skills ii) Conducting orientations programs for the					
	stude	nts –future plans-activities-releasing road map etc. iii) Displaying success					
	storie	s-motivational biopics- award winning movies on societal issues etc. iv)					
	Conc	ducting talent show i	n singing patriotic songs-paintings-	- any	v oth	ier	
	contribution.						
	<b></b>						
Unit II	NA'	TURE & CARE				:	5 hr
	Activ	vities:		•	1.		
	1) Na	ature & Care Best out (	of waste competition. 11) Poster and s	igns i	maki	ng	
	com	petition to spread e	environmental awareness. 111) Rec	yciin	g a	na	
	dov	v) Digital Environment	tel everences estivity via verious	g Zero	)-was		
	uay.	v) Digital Environnel	inal awareness activity via various s	social proso	hos f	na For	
	pian	vinable living vii) Write	a summary on any book related to ar	pioae	mes i	.01 tol	
	issue	unable fivilig. vii) wind	e a summary on any book related to er	IVIIOI	men	lai	
	15500						
Unit III	CO	MMUNITY SERVICE	2				5 hr
	Activ	vities:					~ 111
	i) (	Community Service Co	onducting One Day Special Camp	in a	villa	ge	
	cont	acting village-area lea	ders- Survey in the village iden	tificat	ion	of	
	prob	lems- helping them to	o solve via media- authorities- ext	perts-	etc.	24	
	JNT	UGV B. Tech. R23 Re	gulations ii) Conducting awareness	progra	ams	on	
	Heal	th-related issues such a	s General Health, Mental health. Spir	itual	Healt	th,	
	HIV	AIDS, iii) Conducting	consumer Awareness. Explaining v	ariou	s leg	gal	
	prov	isions etc. iv) Wome	en Empowerment Programmes- Sez	xual	Abus	se,	
	Adol	lescent Health and Por	oulation Education. v) Any other pro-	ogram	mes	in	
	colla	boration with local char	ities, NGOs etc.	0
