## Feedback Analysis for AY 2019-20

### Metric ID: 1.4.2

The Faculty whose rating is less than 4 out of 5 rating points in the online student feedback are summoned to meet the Department academic Committee (DAC) which comprises of the HOD, Academic Coordinator and the Administrative coordinator (or two senior faculty). The consolidated feedback given by the students is thoroughly analyzed and suitable corrective adjustments are suggested for possible improvements in the delivery mechanism.

The following table shows the faculty with rating less than the Department set threshold limit which is 4

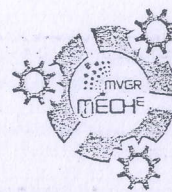

| S. No | Name of the Faculty    | Department | Course                       | Feedback Rating out of 5 |

### FEED BACK ANALYSIS FORM

I, K. S. Ravi Kumar working as Assistant/Associate Professor in the Department of EEE dealing with the delivery of Basic Electrical & Electronics Engineering course for I / II / III / IV Year I / II Semester Mechanical Engineering students for the academic year 2019 - 2020 am appraised of the feedback given by the students. Upon critical analysis of the feedback along with H. O. D, Mechanical and senior members of the Department, I have received some really helpful and constructive inputs to enhance my course delivery mechanism.

The following are the aspects of delivery mechanism discussed

1. The amount of Explanation is found to be insufficient. So we resolved to put more time to explain the experiment by taking demonstration of the experiments again.
2. The student needed practical guidance, we, along with technician, discussed and resolved to put more efforts during the experimentation, of the student.

#### Comments

WE ARE NOT EVEN ABLE TO ACQUIRE THE BASIC KNOWLEDGE OF THE INSTRUMENTS THE COURSE INSTRUCTOR IS VERY POOR IN DELIVERING THE SUBJECT...WE WISH THAT PLEASE CHANGE THE FACULTY SO THAT WE MAY ABLE TO LEARN THE ACTUAL OBJECTIVES OF THE COURSE....

not explaining the circuit properly and so experiments are getting lagged

we are not able to understand the concept or the experiment, just mugging up need to know how to do the experiment and the significance. we wish to have an extra technician.

SIR IS NOT GUIDING US ANYTHING AND HE IS NOT TEACHING ANYTHING IMPORTANT. ITS NOT LIKE A PRACTICAL AND IT SEEMS TO BE JUST NOTING THE READINGS.

CANT ABLE TO UNDERSTAND THE SUBJECT

they are not giving detail explanation about what we are doing in lab..

NO PERFECT EXPLANATION OF THE EXPERIMENT AND THERE IS NO PROPER DEMONSTRATION ....I WAS VERY REGRET TO TYPE THIS COMMENT...MAY THIS MAY RESULT IN REPUTATION OF OUE GREAT MVGR COLLEGE

NEED TO GIVE CLARITY ABOUT THE EXPERIMENT BEING PERFORMED

the knowledge of the teacher in the particular field is very poor.

THERE IS NO PRACTICAL LEARNING.CLARIFY THE QUESTIONS OF STUDENTS REGARDS THE EXPERIMENT.

SOME MORE EXPLANATION REQUIRED

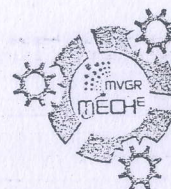

his behaviour with students is quite uncomfortable mostly ignores our doubts and doesnt clarify them correctly doesnt teach the concept though we ask for it feels like he needs to improve his conceptual and teaching skills a lot

worse

## Comments

not able to understand and sound is unclear during class sessions

LECTURE IS GOOD IN SUBJECT BUT I'M NOT ABLE TO UNDERSTAND WHAT HE IS TRYING TO TEACH .

VERY GOOD

voice is not clear

audability of the course instructor is not upto the satisfactory levels and i find it very difficult to undestand his words during the lecture

IT IS BECOMING MORE DIFFICULT ,NO CLARITY ON LECTURES AND UNABLE TO COMMUNICATE WITH FACULTY , USING ICT IS GOOD BUT EVERYTHING GOES ON PROJECTOR

THE COURSE IS GOING SATISFACTORILY, there is some lagging when it come to explanation part.

application oriented lectures are required

we can't able to understand

VERY GOOD TEACHING SKILLS AND CLEARLY UNDERSTANDING.

sir is with excellent knowledge but there is a problem in conveying that concept.....apart from those the explanation is not that much clear but the examples given while explaining were extraordinary....

cant understand properly and doubts cant understand

GOOD TEACHING

SUMS EXPLANATION SHOULD BE BETTER

SIR IS GOOD IN SUBJECT BUT A SMALL SUGGESTION, THE QUALITY AND DELIVERY OF SUBJECT NEEDS TO BE IMPROVED FOR BETTER UNDERSTANDING

we are finding difficulties in understanding the subject

Explanation is very good

the method of dealing with the subject is excellent and really innovative which facilitates and enhances our self learning skills

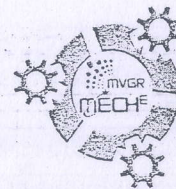

Sir has lot of matter but the way of explaining cant be understand to us and voice is also not clearly audible.

SIRS DOES'T GIVE ENOUGH KNOWLEDGE ABOUT GIVEN LECTURES

## Comments

WRITING ON BOARD IS NOT VISIBLE AND BASICS ARE NOT EXPLAINED CLEARLY

no clarity in explanation, interaction

need more clarity in delivering the lecture

PLEASE GIVE US ASSIGNMENTS WHICH ARE DIFFERENT AND CAN IMPROVE STUDENT SKILL

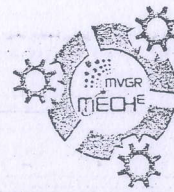

we need some more clarity in subject explanation

good

## Comments

there is a deviation in the topic taught to us.

GOOD

still more depth in subject required

Subject is good but little lag in classes compared to daily schedule.

syllabus is in lag so sir is going bit fast and we think he is skipping topics(derivations

good but would be better if you increase the speed of teaching.teaching somewhat slowly during the period

Need to take more classes.

satisfactory

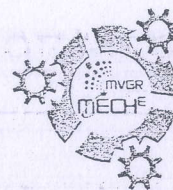

need demonstration classes and board presentation

## Comments

classes are very boring and no clarity of what is going on in the class.

no clarity of subject and confused because of teaching

unable to understand the class

Basics need to be taught and more problems should be practiced in the class

need more clarity and examples of the topics

Level of understanding for a topic is not adequate enough

too difficult to understand his teaching

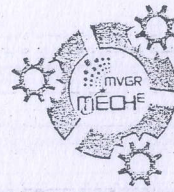

lecture is satisfactory

really having a great leacture. But a small suggestion that to give few more problems .so,we can practice more.

#### Comments

VERY HAPPY TO HAVE SUCH AN OUTSTNDING FACULTY..THANQ SUBRHAMANYAM SIR

COURSE TEACHING WAS GOOD BUT ITS NOT APLICATION ORIENTED. I THINK IT WILL NOT BE USEFUL FOR FUTURE.

SIR PLZ REMOVE YOUR MIC , IT SOUNDS LOUD .TEACHING IS GOOD BUT SO NOISY ONLY BCOZ OF YOUR MIC

EXCELLENT

EXCELLENT TEACHING TECHNIQUE,this has to continue for further years and dept should allow toi follow such principles

i feel the clarity in his lecture delivery is poor in terms of communication. more effective and clear

good

the course delivery speed must be increased a bit.

lectures are a bit lengthy

good teaching but not properly clearing doubts

NEED CLEAR EXPLANATION REGARDING THE OPIC

everything is fine except ,it would be better if he stops using the microphone

THE SUBJECT DELIVERED IS NOT ADEQUATE TO THE CORRESPONDING COURSE.....WE ARE FACING PROBLEMS IN CLARIFICATION OF DOUBTS..ANSWER GIVEN BY THE FACULTY IS VERY POORLY RELEVANT TO THE QUESTION ASKED

not understanding the way of teaching. and the mike is little inconvenience for clarity and loud volume getting inconvenience. should improve in explaining the subjects to the students.

GOOD

NBA Accredited UG Courses: B.Tech(MEC), B.Tech(CIV), B.Tech(EEE), B.Tech(ECE), B.Tech(CSE), B.Tech(IT),  
B.Tech(MEC) & B.Tech(CHE) and PG Course: MBA

### **Policy for Student Feedback**

The policy followed by the Department of Electronics and Communication Engineering for the student feedback is defined in the ensuing sections.

#### **Feedback Objective**

The main objective of the student feedback is to assess the efficacy of the teaching learning process delivered and the student perspective on the availability & sufficiency of the Infrastructural and learning resources for possible corrective / remedial action. The course exit feedback is to assess the attainment of the course outcomes from the student perspective. The Program exit feedback concentrates on the assessment of the attainments of the program outcomes by the students.

#### **Frequency and Type of Feedback**

The student feedback shall be sought thrice every semester and once at the end of the program.

The following table details the chronology in which the feedback is sought from the students

| <b>Feedback No.</b>   | <b>Timing of Feedback</b>                       | <b>Type of Feedback</b> |
|-----------------------|---|-------------------------|
| Feedback 1            | Two weeks after the commencement of course work | Online                  |
| Feedback 2            | Two weeks after the first mid examination       | Online                  |
| Course Exit Feedback  | After the completion of the course work         | Online                  |
| Program Exit Feedback | After the completion of eighth semester         | Online                  |

In addition to this feedback shall also be sought from a group of class representatives twice every semester.

#### **Feedback Assessment Parameters**

The feedback shall be sought to assess the level of satisfaction of the student on the following parameters

- Course Orientation
- Refreshment of prerequisites
- Elucidation of Course Objectives and outcomes
- Compatibility of Lesson plan to Course Delivery
- Compatibility of Assignments to learning objectives
- Adequacy of Tutorials
- Classroom Environment
- Level of Interaction
- Faculty's Tolerance to disagreement
- Faculty's Compliance to Timetable
- Faculty's Clarity & Audibility
- Usage of Modern tools
- Faculty's Adjudication of Internals (Partial or impartial)
- Overall level of Satisfaction on a course

In addition, the student is also provided with a blank text box in the online feedback form to facilitate the feedback on any other issue which is not covered by the above parameters.

### **Feedback Assessment**

The students shall provide their feedback anonymously through an online feedback form for each and every course (both theory and laboratory courses) on the parameters mentioned in the preceding section. Each parameter is rated on a scale of five. The feedback by all the students is consolidated and final rating point for each course on a scale of five is arrived at based on weighted averages. The feedback on each and every course is mailed to the respective course coordinators.

### **Feedback Analysis**

The Department Academic Committee shall analyze the feedback and identifies the courses with low rating. Any course with feedback rating point less than four is identified as the one which needs immediate corrective action in terms of course delivery. The committee then identifies the lowly rated parameter

### Action based on Feedback

The Department Academic Committee then summons the faculty with low rating point and discusses the feedback analysis and the observations made thereby. The committee counsels the faculty, makes to understand their rationale on the reasons for low rating and suggest the possible remedial action. The faculty then addresses the students on these aspects and explains the corrective measures to be implemented henceforth. If same low rating is continued for the second feedback also, then the faculty is suggested to attend a refresher course or an NPTEL course which may help improve the course delivery mechanism.

Feedback not obtained

**Total Count:** 5

**Proofs Description:** Year wise summary reports

### Feedback Process & Policy

- We have designed a Online application to collect the students feedback on Teaching learning process.
- For each semester we are going to collect the student's feedback for two times. One is at midterm and another one is at the end of the semester.
- The online application contains a questionnaire and ask the students to evaluate the particular subject with options like Excellent, Good, Average, poor.
- After students have given the feedback it will be summarized in the application and a score will be generated for a score of 5.
- For each subject a separate comment section also will be there so that the comments also will be collected.
- And also not limited to that inputs also will be taken from class In-charges and class representatives.
- Finally this report will be shared with the corresponding faculty and HOD.
- HOD and Academic coordinator will evaluate the report and a review meeting will be held by them with respective faculty to assert the problems and rectifications.

#### Comments Obtained:

|  |
|--|
| good   |
| give clarity for each topic                                  |
| need some more classes to practise                           |
| please give clarity  |
| good explanation   |
| has to develop communication skills and should be more clear |
| average  |
| well explained with examples                                 |

### Analysis of First Cycle feedback from II Year I Sem students' - Academic Year 2016-17

#### Department Level Feedback Action Items:

- **Timetable is not followed:** Due to the hectic schedule, few adjustments were made to complete the syllabus in time for I mid exams.

#### Subject-wise feedback based corrective recommendations to Teachers:

- **Unix & Shell Programming:**
  - **Lab has insufficient time to do:** Due to power fluctuations & network problems in then department, the department failed to provide complete access without break to the UNIX server which in-turn made the lab appear more difficult due to lack of perfect practice. Now the department has taken permission from principal to purchase Spike Guards to get connected to UPS for all the systems. Also, the network problem in the department could be resolved now.
  - **Not understanding please extra classes:** The department has allotted one extra period for this subject to have live demonstration of the concepts before entering into the lab.
